

Miradore Enrollment Service

Part of Miradore Online

Benefits

- Manage your devices sooner
- Save time and resources
- Fixed price, unlimited devices

Service overview

One of the biggest initial challenges, and most time-consuming efforts of our clients is device enrollment. Whether it's 20 devices, or 2000 devices, there are some important aspects to consider, and different actions needed to achieve your goals. At Miradore, we want to take this pain point away from you, and allow you to start managing your devices immediately, without any extra labor.

The Miradore Enrollment Service lets you tell us what you need to do, and have us do the hard work for you. For one fixed price, we consult on your needs, add your users and enroll your devices using the method required to fulfill your management specifications. This lets you start managing your devices right away and ensures security compliance within your fleet.

Features

Specifications

Site configuration

Understanding your needs and current environment. Configuring your Miradore site to match your requirements.

User import

Using the right method and format to import the users along with their contact details using Active Directory, CSV and more.

iOS & Android device enrollment

Choosing the right method(s) for enrolling your devices (Apple DEP, Android Enterprise). Enrolling devices from start to finish. Daily reporting.

5 Steps to Efficient Enrollment

1. Pre-requirements & approval

Initial meeting, technical requirements and your end goals. Walking through the steps, tasks and roles. Commercials & Approval.

2. Planning

How to enroll? Which technologies to use? (Apple DEP, Android Enterprise Solution, Managed Google Play, etc.). Understanding how to import users. Invite Miradore as Admin to your site.

3. Set up

Setting up site according to planning phase. Importing users. Creating enrollment messages.

4. Go live

Enrolling devices. Daily attempts, reminders and reporting of results.

5. Start managing your devices!

Your site is now configured properly and you have a final report of device enrollment statistics. Time to start managing your devices.
